

```
- * /-----  
-  
package com.mycompany.employee;  
  
/**  
 *  
 * @author 1BSCCSA59  
 */ import java.util.*;  
public class Employee {  
  
} public static void main(String[] args) {  
    Scanner sc=new Scanner(System.in);  
    System.out.println("Enter the basic pay");  
    int pay=sc.nextInt();  
    double da=0.3*pay;  
    double hra=0.15*pay;  
    double pf=0.125*pay;  
    double gross=pay+da+hra;  
    double net=gross-pf;  
    System.out.println("gross pay="+gross);  
    System.out.println("net pay="+net);  
  
}  
}  
}
```

Enter the basic pay

65
gross pay=94.25
net pay=86.125
